

## ***Superintendent's Message to Parents***

*Dear Families,*

*Engaging students in learning rich content that sparks their curiosity and creativity is our number one priority -- we've planned the "summer of fun" to do just that. As a school district, we are united in one central goal: to ensure that every child is engaged in learning.*

*The Summer Learning Camp is a great opportunity to meet the needs for our K-7 students. In designing this Summer Program, our staff has planned for a wide range of instructional modes that include hands-on, inquiry, STEM, and outdoor learning. Students with disabilities, students learning English, and students who need additional supports due to absences are encouraged to take part as are all who want to take advantage of the Summer of Fun,*

*We encourage you to complete this application so that your child may take advantage of this invaluable learning experience.*

*Sincerely,*

*Dr. Ilene Tracey, Superintendent*

**BREAKFAST AND LUNCH WILL BE PROVIDED  
FOR ALL STUDENTS**

# SUMMER CURRICULUM

## Literacy

Summer LitCamp incorporates literacy skills-reading and writing, oral language, engagement skills, in addition to social-emotional development with EL support to meet the needs of all students.

## Math

Our Math program is intended to reinforce and complement the grade level standards and math skills taught throughout the school year to extend learning. It is designed to meet the needs of all students in numeracy, problem-solving and STEM activities..

## SOARS

Summer Soars STEM program is designed to engage our **middle school students** in exciting learning adventures to unleash their natural curiosity. Through fun engineering and team building activities, students work together to innovate and create solutions to everyday problems.
